ABOUT MYSELF

Software Engineering Student | Intern & Project Contributor

IMSciences Peshawar, 2025 – Present

I'm a Software Engineering student with hands-on experience in Website Development Using Wordpress, front-end web development(HTML, CSS, JavaScript), mobile app development, and IT training. Skilled in using technologies such as HTML, CSS, JavaScript, Flutter, and C++, **WordPress**, with expertise in **customizing themes and plugins**, managing deployments, and implementing best practices for scalability and security. I am currently contributing to multiple projects, including building a **Smart Inventory Management app**, developing **full-fledged ERP systems in C++ OOP**, and managing **real-time WordPress projects** such as **GrowWithGurus.com**, **StarDataBusiness.com**, and **SES Peshawar**. My work also involves **automation workflows**, **backup and restoration strategies**, and **optimization techniques** for reliable and high-performing web solutions. Eager to apply my knowledge in real world scenarios while continually learning new techniques to build efficient, user-friendly solutions. Strong teamwork, communication, and technical skills with a keen interest in both front-end and back-end development.

EDUCATION AND TRAINING

BS Software Engineering

IMSciences [16 Aug 2024 – Current]

City: Peshawar | **Country:** Pakistan | **Website:** <https://imsciences.edu.pk/> | **Field(s) of study:** Software Engineering ; Information and Communication Technologies (ICTs): • Software and applications development and analysis | **Level in EQF:** EQF level 3

SKILLS

WordPress / Website Development / Mobile Application Development / Flutter (FrontEnd , Firebase) / Flutter App developer / implement front-end website design / FrontEnd: HTML, CSS, JavaScript / Development: HTML, CSS, JavaScript, Bootstrap 4, Android, Flutter / C,C++ / Dart / Programming: Python, C, C++, C#, MATLAB / MATLAB / Git/Github, Docker, Gitlab

WORK EXPERIENCE

Cyber Pashto Chapters – Peshawar, Pakistan

City: Peshawar | **Country:** Pakistan

Web developers

[1 Sep 2024 – Current]

Worked as a **WordPress and Website Developer** at **Cyber Pashto Chapters**, contributing to real-time projects. Also delivered **sessions** within the community on WordPress and website development.

Key Responsibilities:

- Developed, deployed, and managed websites using **Hostinger** and **WordPress**.
- Followed **WordPress best practices** for secure and scalable solutions.

- Improved website speed, performance, and visibility using **optimization tools**.
- Delivered **sessions at Cyber Pashto Chapters** on web development topics.

OneDegree – Peshawar, Pakistan

City: Peshawar | Country: Pakistan

Web developer

[1 Mar 2025 – Current]

Worked as a WordPress and Website Developer on real-time projects including **growwithgururs.com**, **stardatabusiness.com**, **sespeshawar.com**, and multiple personal portfolio websites.

Key Responsibilities:

- Developed, deployed, and managed websites using **Hostinger** and **WordPress**.
- Customized **themes and plugins** to meet client-specific requirements.
- Applied WordPress **plugin structure and best practices** for maintainable solutions.
- Implemented **automation, backups, and restoration strategies** for website security and reliability.
- Optimized website performance using professional **optimization tools**.
- Utilized **VS Code, ChatGPT, and Cursor AI** for coding, debugging, and research tasks.

CodeAlpha – Lucknow, India

City: Lucknow | Country: India

Web developer

[5 Jan 2025 – 5 May 2025]

Contributed as a remote Intern to front-end web development projects by designing and implementing responsive user interfaces using HTML, CSS, and JavaScript. Gained hands-on experience in building interactive UI components, improving website performance, and collaborating with team members on real-time tasks and feedback

SMIT – Peshawar, Pakistan

City: Peshawar | Country: Pakistan

Web developer

[9 Sep 2023 – 22 Dec 2024]

Intern – Web & Mobile Development | SMIT (Saylani Mass IT Training Program)

Engaged in practical training covering web and mobile development technologies. Worked on building responsive websites using HTML, CSS, and JavaScript, and explored cross-platform app development with Flutter. Developed functional UI components and enhanced problem-solving skills through project-based learning and continuous mentorship.

Alkhidmat -BANO QABIL – Peshawar, Pakistan

City: Peshawar | Country: Pakistan

Flutter Developer

[12 Jan 2025 – 2 Aug 2025]

Intern – IT Training | Bano Qabil (Alkhidmat Foundation Pakistan)

Selected as an intern under the Bano Qabil initiative by Alkhidmat Foundation, focused on enhancing IT skills and professional development. Participated in hands-on training sessions covering key areas such as programming, software development, and digital skills. Collaborated with peers on technical projects aimed at practical learning and community empowerment through technology.

PROJECTS

[2 Apr 2025 – Current]

invensys Smart Inventory Ongoing Project – Smart Inventory Mobile App | Invensys Currently developing a Smart Inventory Management mobile application using Flutter under the mentorship of Invensys. The app is designed to streamline inventory tracking, product listing, and real-time data updates. Focused on building a user-

friendly interface, ensuring responsive design, and integrating essential backend functionality for data management and user authentication

[10 Mar 2025 – 14 Jun 2025]

ERP System – C++ (Object-Oriented Programming Project) Developed a **full-fledged ERP (Enterprise Resource Planning) system** in C++ using **Object-Oriented Programming principles** as a collaborative project. The system was designed to manage **Admin, Teacher, and Student portals**, with each module offering distinct features for real-world academic and organizational use.**Key Features & Responsibilities:**

- Designed and implemented **modular portals**:
 - **Admin Module** – user management, system monitoring, and overall control.
 - **Teacher Module** – attendance, grading, and course-related functionalities.
 - **Student Module** – profile management, course details, and progress tracking.
- Applied **OOP concepts** such as **classes, inheritance, polymorphism, encapsulation, and abstraction** to ensure scalability and maintainability.
- Integrated **file handling** for persistent data storage (students, teachers, admin records, and activities).
- Implemented **validation, error handling, and interactive menus** for a smooth user experience.
- Followed **structured documentation practices**, including system requirements, use cases, UML diagrams, and module responsibilities.
- Collaborated with team members to divide responsibilities, ensuring **modular coding and integration**.

Impact:This project showcased practical application of **OOP in real-world system design**, demonstrating strong **problem-solving, teamwork, and software engineering fundamentals**.
